Introduction

WHAT IS THE PROBLEM WITH NATURAL DYES AND THE EFFECT OF THE SUN?

WHY COULD THIS PROJECT HAVE AN IMPACT ON DESIGNS?

Requirements

Our solution

THE SOFTWARE : TOOLS USED

VISUALIZATIONS AVAILABLE

How to use : a complete guide

You can ~~strike-text~~, put it in **bold**, int italic, or *both*. Subtext_{too}, super^{text} also, underline some, overline others and **highlight** in the color of the theme. Equations are supported too, like $a^2 + b^2 = c^2$.

Summary is made automatically, bibliography too as long as you specify a bib-yaml file. Customs blocks and a customized code block are available with the functions below.

Warning block, to warn about something important.

Info block, to inform about something.

Comment block, to add a comment.

Quote, image, table, footnote, custom caption, reference and many more are available and customized to this template : please refer to the official documentation or [this example](#) of everything in this template for more information.
